

Taking the Guesswork out of **Enclosure Configuration**

Belden offers a complete range of free-standing and wall-mount enclosures, as well as open rack systems – all available for specification by our new Configuration tool.

Why guess on enclosure configuration when you can use Belden's state-of-the-art Cable Management Configurator – a powerful new software tool that will enable the quick specification of error-free enclosure/rack systems.

With Belden's Configurator you can:

- Build a complete configuration in less than 10 minutes
- Have confidence that all components you select will work together
- View/download CAD drawings depicting all enclosure details
- Access/download relevant spec sheets, drawings and pictures
- Create a template that makes it easy to create multiple orders
- Request a quote in a concise, easy way

To find out more – and to put this new cable management tool to the test – visit our web site at <http://www.belden.com/configurator>.

By simply registering to give the configurator a go, you'll be automatically entered in the February 2009 drawing for a Nintendo® Wii™, along with a game that represents Belden's close ties with the Olympics ... Mario & Sonic at the Olympic Games.

You can also visit Belden's booth (#519) at the 2009 BICSI Winter Conference in Orlando, FL to see a live demo of the new Configurator.
