BELDEN UNVEILS INDUSTRIAL WEB SITE FOR MANUFACTURING AND PROCESSING PLANTS AND INDUSTRIAL INFRASTRUCTURES

RICHMOND, IN – Belden (NYSE: BDC), a world leader in the development of signal transmission products for the industrial, enterprise, building management, broadcast, and security markets, has unveiled its new Industrial Web Site, accessible at:<http://www.belden.com/industrial>. The site is designed to serve the infrastructure communications needs of industrial professionals, as well as system designers and integrators who serve the harsh and demanding industrial marketplace. This includes process industries such as oil, gas and petrochemicals, food & beverage, and pharmaceuticals; discrete manufacturing industries such as automotive, packaging, and consumer products; and infrastructure facilities such as water/wastewater, wind energy, and transportation.

The new Belden Web Site offers interactive product/application graphics and deep product and technical information -- including an overview of products central to Belden's Integrated Industrial Solution: Belden Industrial cables/connectivity, Hirschmann Industrial Ethernet switches and Lumberg Automation Industrial Ethernet connectivity.

Following is a quick tour of what visitors will discover at the new Industrial Website:

- **Products** – Belden's full line of cabling products including DataTuff® and TrayOptic® cables for Industrial Ethernet and other network protocols, machine control and robotics, process automation and control, and an overview of Hirschmann-branded Ethernet switches, and Lumberg Automation-branded connectivity products.
- **Network & Protocol Solutions** – Belden cables for DeviceNet, PROFIBUS, Ethernet IP, CC-Link, FOUNDATION Fieldbus, and more.
- **Industry Solutions** – Specific Belden solutions for diverse industrial applications, i.e., petrochemical industry and water/wastewater.
- **Services and Support** – Including Network Design, Training, Technical Support, and System Performance.
- **Technical Information** – A wealth of valuable information covering virtually every facet of industrial networking. Users can download an array of product bulletins, technical bulletins, white papers, reference guides, application reports, procurement specs, brochures, and the Belden Master Catalog. Plus the eCatalog is available on the site to all users, complete with technical data sheets.
- **News & Events** – Belden press releases and a schedule of trade shows.

For more information, contact Belden, P.O. Box 1980, Richmond, Indiana 47375, or call 1.800.BELDEN.1. FAX: 765.983.5294. Or visit the new Industrial Web site: www.belden.com/industrial.

About Belden

Sending All the Right Signals – from industrial automation to data centers, from broadcast studios to aerospace, from cutting-edge wireless communications to consumer electronics, Belden people are committed to delivering the best signal transmission solutions in the world. Our 8,000 associates worldwide work in copper cable, fiber, wireless technology, connectors, switches and active components to bring voice, video and data to your mission-critical application. With 2007 revenue of \$2.0 billion, Belden has manufacturing capability in North America, Europe and Asia.
