Total: 1799 Items

- * Belden has identified the above list of products for potential uses in exempt applications as outlined in the Prop 65 Consent Judgement. Actual end-user application(s) may vary. Applies to all colors and package/reel sizes.

Per the consent judgement, the following products are deemed to be **exempt** from any Proposition 65 warning requirements:

- Products which because of their size, weight, or function are handled infrequently (not typically plugged and unplugged);
- Products manufactured before September 1, 2003;
- Products distributed outside the state of California;
- Products used only as internal components not normally accessible during ordinary use;
- Products containing a Proposition 65 chemical only as part of the inner conductor(s) or other component not normally accessible during ordinary use.

Standard products not found on this list are considered by Belden to be non-exempt or to contain less than 300ppm lead in the outer jacket. A listing of exempt and non-exempt standard Belden products containing greater than 300ppm lead in the outer jacket may be found at www.belden.com on the *Electronics Division* web page (under EHS).

Belden is in the process of removing lead from our products. Products **manufactured before September 1, 2003** may contain lead even if not listed here. Contact Belden for information on products manufactured before September 1, 2003.
