## Announcement of Product & Packaging Changes for Hirschmann Form A Molded Square Connectors

Dear Valued Customer,

To keep up with the latest market and technology trends, Belden continuously develops innovative, high-quality products and variations that enhance and optimize our existing portfolio. Each product has a defined life cycle and is typically characterized by a long availability in the market. However, over time, changes to products become necessary. For instance, some components may be hard to obtain, may no longer be available, or may need to be updated to meet new market requirements.

This letter is to inform you about an upcoming activity that involves improvements to agency approval for existing Hirschmann Form A valve connectors.

- Agency Approval Update

**PCN No:** PCN-2025-03-05

**Change Title:** Agency update for Hirschmann Form A Valve Connectors

**Product Category:** Valve

Change Classification: \_\_\_ Minor  Major

Change Item: \_\_\_ Design \_\_\_ Raw Material  Packaging \_\_\_ Firmware  Others

**Product Category:** GAN

**Affected Products:** See page 4 of document. Excel list available on request

### Details of change(s):

To demonstrate our commitment to safety, quality, and regulatory compliance, Belden is pleased to announce that the following products will now feature UL-Recognized certification under the 2238 standard. Previously, only select Hirschmann GAN Form A connectors that did not include LED indication with specific cabling options carried UL certification. GAN Form A connectors that include LED indication and/or protective circuitry will also be certified under this UL standard.

You can find details about the UL certification in UL's Online Certification Directory at [www.ul.com](http://www.ul.com), using UL file number E315587. Additionally, Belden will update the carton packaging labels to include the UL logo, file number, and relevant standards.

The cable printing will include a note "for use within equipment use only" after the article number and description. This indicates that the component is UL Recognized and has been tested for safe use as part of a larger system, not for standalone consumer use. It should be installed in a finished product, with its function managed by the overall system design, which will also undergo UL testing for safety.

Please note this change applies to **standard products only**.

Label Update	Cable Update
	

### Impact of Change(s):

**Form:** No Change | **Fit:** No Change | **Function:** No Change | **Reliability:** No Change | **Others:** Agency Approval

Implementation Plan	Date
Date of Communication	5 March 2025
Starting Date of Implementation	Immediately, 27 February 2025

### Implementation Note:

During the implementation plan, deliveries may be mixed as inventories are depleted and replenished with new variants.
