

Need Fiber? Have It Shipped Today!

Sometimes your customer's projects can't wait on materials to arrive. There are timelines to beat, clients to keep happy, last-minute changes that happen or things overlooked during planning.

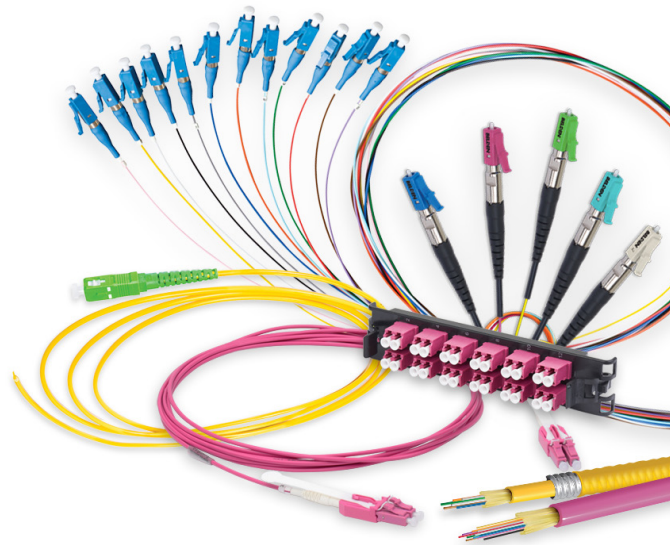

That's why Belden launched a new same-day shipping service for its fiber cable and connectivity solutions. There are no minimum or maximum orders, so your customers can get exactly what they want. If you don't have it in stock, we do — and will work with you to get the product to your customers, where they need it, when they need it.

Terms & Conditions

1. Available in the US and Canada only.
2. Purchase orders must:
 - a. Be for eligible, in-stock products. It is Belden's expectation that it will be able to offer same-day shipping on all eligible products. However, Belden cannot guarantee that its inventory of eligible products will always allow for same-day shipping of all orders. If we are unable to fulfill an eligible order for an eligible product on the day received, we will inform the customer and, if possible, offer potential alternatives.
 - b. Be received by Belden Customer Service via the provided email address prior to 2pm EST on a business day; orders received after 2pm EST will be processed as a same-day order on the following business day.
 - c. Be a standalone order for the eligible product and specify "same-day shipping" on the purchase order.
3. Orders via EDI are not eligible for this promotion.
4. All orders must be accompanied by a shipping account name and number. All shipping charges will be billed to the provided shipping account number. Shipments will be shipped to the delivery address identified when the order is placed using the shipping method identified at the time of the order.
5. All sales made under this program shall be subject to Belden's Standard Terms and Conditions of Sale (the "Standard Terms"), with the exception of shipping charges, which will be billed to the account provided.

Here's how it works:

- Installers place an order for eligible products with their preferred Belden Distributor, specifying same-day shipping and providing shipping details, including shipping method, account name and number.
- **For orders in the US**, distributors send the PO to orderservices@belden.com by 2pm EST, specifying *same-day shipping* and providing the shipping details.
- **For orders in Canada**, distributors send the PO to orderservicesca@belden.com by 2pm EST, specifying *same-day shipping* and providing shipping details.
- Product will be shipped out to the specified location that same day.
