

The Industry's Smallest-Diameter Category 6A Cable Designed for Smart Building Applications and Optimized for In-Building Wireless Networks

Combining the Category 6A performance you need with the Belden quality and reliability you expect, 10GXW Cables are the lightest, easiest-to-deploy solution available, eliminating slow speeds and maximizing uptime for smart building networks. For fast and easy termination, combine 10GXW with Belden's REVConnect® Connectivity System. These solutions are designed to work together to create a reliable, end-to-end wireless infrastructure.

BENEFITS

- Reduce installation time and costs through direct-connect termination (MPTL) to any endpoint device using the REVConnect Plug or FlexPlug
- Provide reliable, multi-gigabit network performance, eliminate slow network speeds and maximize uptime
- Speed up deployment using the smallest and lightest horizontal Category 6A cable available and maximize the number of cables within a conduit

FEATURES

- Designed for seamless termination with the innovative REVConnect Connectivity System
- Best-in-class system noise immunity achieved through outstanding cable balance and pairing with REVConnect Connectivity System
- EquiBlock™ technology enables a consistent, 0.250" cable diameter and eliminates hotspots

KEY APPLICATIONS

- In-building Wi-Fi
 - Wi-Fi 6 (802.11ax)
 - 802.11ac
- In-building small cells
- 100W Type 4 PoE

Reduce Installation Time and Costs by Combining with REVConnect Connectivity System

RELIABLE

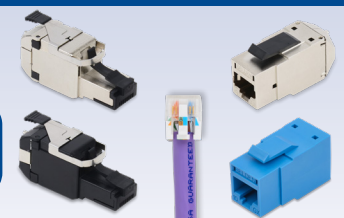

REVConnect features a highly reliable termination for a secure, gas-tight connection that is proven to reduce rework at all category levels.

EASY

REVConnect's universal wiring manager supports all UTP and STP CAT 5e, CAT 6 and CAT 6A cables with a single tool that covers all steps of the termination process, including cable presentation.

VERSATILE

The same universal core can terminate a jack or a plug. This means that field-terminable plugs, which support CAT 6A and high PoE performance, can be terminated as quickly and easily as a jack.
