

Lumberg Automation IO-Link Starter Kit

IO-Link is a standardized point-to-point communication protocol used for connecting sensors and actuators to the industrial Ethernet (PLC level).

Creating industrial automation networks with the vendor independent IO-Link technology is the ideal solution for faster, more flexible and more efficient production. It provides a powerful and cost-efficient infrastructure for reliably managing the growing volume of data.

+ **Easy and cost-conscious initial commissioning** with an IO-Link Starter Kit from Lumberg Automation

+ **Get ready for Industry 4.0** with smart IO-Link connectivity solutions

Special offer valid until January 31, 2021

Belden provides new and innovative technologies.

Implement an IO-Link solution into your current system or application with the  **IO-Link Starter Kit** from Lumberg Automation.
