## Product / Process Change Notification

Dear Customer,

In order to meet the latest market-demand as well as the latest norm-requirements, we are constantly refining products in regards to effectiveness, accreditation and high quality.

In this context, Belden has modified the print process of the valve connectors.

Please read the following text for more information.

**PCN No:** PCN-2019-06-04

**Date:** 2019-06-04

---

### Change Title: Printing on Housing

Change Classification:  Minor  Major

Change Item:  Design  Raw Material  Packaging  Firmware  Others

---

**Product Category:** VAD, VB, VBD, VC, VCD

---

### Details of Change(s):

Changing the print process from stamp to laser print.

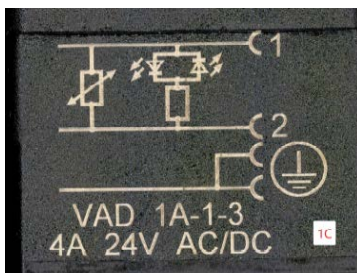

---

### Reason for Change(s):

Improve overall manufacturing efficiency via less downtime due to older stamp machine

---

**New Design(s):** see picture below

---

**Affected Product(s):**

Lumberg Automation branded connectors

Product Line	Product Nomenclature Affected
Type A	VAD
Type B	VB(D) (Industrial and DIN Standard)
Type C	VC(D) (Industrial and DIN Standard)

---

**Impact of Change(s):**

Form: not affected  
Fit: not affected  
Function: not affected  
Reliability: not affected  
Others: appearance

---

**Implementation Plan:**

All product(s) affected by the change have been tested in accordance to DIN EN 60068-2-70. This test involved a rub off test using a cloth soaked in select liquids. The following liquids were tested; fuel, petrol, hydraulic oil and tap water.

Our plan is to implement the new laser printer ASAP. This change will be minor to the print legend on the housing. This change will have no effect to the current inventory in place at Belden or existing inventory in place at our channel partners.
