

September 13, 2018

Dear Valued Customer,

This letter serves as your formal notification that Belden is discontinuing two graphical user interface functions from Hirschmann Industrial HiVision, **effective December 1, 2018**. These are the **embedded Java applet** and the **ActiveX control**.

The embedded Java applet uses a version of Java which is not supported by modern browsers. It is therefore obsolete.

The ActiveX control is no longer widely used, and has been superseded by other northbound interfaces.

**Discontinued Product(s)**

Discontinued Product Version	Description	Suggested Alternative	Description
<a href="#">Embedded Java applet</a>	Network management interface	Standard Industrial HiVision interface	Automatically included in the Industrial HiVision installation
<a href="#">ActiveX control</a>	Network management interface	OPC DA, OPC UA	Optional during the Industrial HiVision installation

Existing versions of Industrial HiVision will still be available for download, but these versions will no longer be maintained outside the one year warranty period.

For more information on Belden's Long Term Product Support Policy for Industrial Networking products, please visit [www.belden.com/ltps](http://www.belden.com/ltps). Special contracts in place and active prior to the announcement date will be honored according to the terms of that contract, with regard to product availability, warranty, or support terms.

**Discontinuation Milestones – Embedded Java applet, ActiveX control**

Milestone	Date
Discontinuation Announcement Date	September 13, 2018
Last Order Date	December 1, 2018
Last Shipment Date	December 31, 2018
